

Summer

Term

1

1

in

Blue

class

In Writing we will be looking specifically at the book "Hey Bug!" which is a beautiful book full of poems about nature and creatures! Can you tell your child your favourite poem?

Shapes is the topic for this terms maths. We will be delving into the world of 2D and 3D. Can you get some chalk and draw some shapes on the pavement!

Collecting data is our theme for Computing. We shall be having fun collecting data on all sorts of interesting things and learning how to input them on the computer! Can you do a data hunt with some bugs?!

For PSHE we will be diving into lifestyle choices and looking at the small things we can do to keep healthy. How about trying one of our wake up shake up songs as a family each morning!

Discovery day will be jam packed with learning all about animals, David Attenborough and the pilgrimage to Hajj.

Net and ball games will take place outside for PE this term. Wimbledon is coming up, maybe take a seat and watch it with your child! Or even better, send a picture of you playing a game of it!

We shall be creating some beautiful sculptures this half term, so watch out for some fabulous pieces coming home this term!
