

## Our Learning Newsletter: Spring 2

<b>My Communication</b>	<b>My Cognition</b>
<p><b>In school we are learning:</b>            A sensory story all about colours, as well as frequent opportunities to make choices and requests.            We will also be enjoying looking at and holding physical books, especially with World Book Day falling in March.</p>	<p><b>In school we are learning:</b>            Computing is about Multimedia, so we will be using touchscreens and switches for games, music and remote control cars.            In Maths we will build attention and experience the language of number by having races with different toy vehicles.</p>
<b>My Body</b>	<b>My Community</b>
<p><b>In school we are learning:</b>            PE is Dance, led by a specialist teacher.            We'll move scarves, pompoms and stretchy cords set to pop and movie music.            In Creative we are going to explore soil and seeds, and make art using natural objects.</p>	<p><b>In school we are learning:</b>            Focusing on turn-taking and anticipation with our sensory Pass the Parcel game, mixing with peers from Purple Class and Shared Attention.</p>
<b>My Care and Independence</b>	<b>PSHE</b>
<p><b>In school we are learning:</b>            In life it is normal and necessary to do jobs both in and out of the house.            We will be concentrating on maximising participation in domestic tasks and gardening.</p>	<p><b>In school we are learning:</b>            Building relationships with others, in school and at home.            Contrasting friendships with people we love at home.</p>

### Home learning opportunities:

- Go on a colour hunt and find objects matching each colour. Model the language and try the Makaton signs:  
<https://www.youtube.com/watch?v=80EC7QcPFzg&t=6s>
- Challenge your child to solve problems by 'forgetting' to plug in a switch for a toy or opening a food packet (if appropriate).
- I know it is contrived but can they help load the washing machine, wipe a table and pack away? They do this at school so it would help reinforce the learning greatly.
