

## Our Learning Newsletter: Spring 2

My Communication	My Cognition
<b>In school we are learning:</b> Exploring poems and nursery rhymes linked to our topic of transport. We will be trying out using our voices and making choices.	<b>In school we are learning:</b> In maths, we are counting as we build towers and explore sending cars down ramps. In computing, we are using switches to drive toy cars and control other toys.
My Body	My Community
<b>In school we are learning:</b> Exploring hot and cold in science, doing lots of ice and water play! PE is Dance, led by a specialist teacher who's previously done short sessions which the class love.	<b>In school we are learning:</b> In Geography we will be exploring the city and the countryside with our friends. In RE we will be exploring Easter in small groups.
My Care and Independence	PSHE
<b>In school we are learning:</b> Growing seeds! This will include activities such as exploring soil and making art with natural objects.	<b>In school we are learning:</b> Our topic is Families, so we will be exploring different families and groups that we belong to.

## Home learning opportunities:

- Can you and your child play with toy cars and other modes of transport – using 'Ready Steady Go' to send them down ramps or even just across the room.
- Can you copy your child's sounds and movements back to them – do they notice when you do?
- Can you sing your child's favourite songs, how do they show their enjoyment?
